BIG BANK MERGER IN CHICAGO MONDAY

INSTITUTIONS SOLD WHOSE RESOURCES TOTAL \$85,000,000

Sale Comes After An Examination Shows That Assets Have Been Impaired by Bad Loans and Investments—All the Depositors Have Been Fully Protected in the Deal

(By The Associated Press)
CHICAGO, Jan. 2.—Two Chicago banks with resources of more than \$85,000,000 were sold tonight after the Chicago Clearing House committee had conducted an examination and found their assets had been impaired by bad loans and investments.
After two days' negotiations the Fort Dearborn National Bank and the Fort Dearborn Trust & Savings Bank were purchased by the Continental & Commercial National Bank and Continental & Commercial Trust & Savings Bank.
Members of the Clearing House committee pooled guarantees totalling \$2,500,000 to protect depositors against any loss.
The clearing house announced that after a special examination of the Drovers National Bank and the Drovers Trust & Savings Bank, owned by the same interests as the Fort Dearborn banks, both institutions had been found to be solvent. All directors representing the old Fort Dearborn interests in the Drovers Bank resigned and were replaced by new men.

DAIL EIREANN TO RESUME SESSIONS ON PEACE TREATY

No Change in Lineup During Christmas Recess

(By The Associated Press)
DUBLIN, Jan. 2.—Virtually all the members of the Dail Eireann had arrived in Dublin tonight for the resumption of the sessions of the Dail tomorrow to give further consideration to the peace treaty with Great Britain. As far as could be gathered from conversation with the members tonight, the Christmas recess has not materially altered the lineup for and against the treaty.
It has been supposed the campaign in the country in favor of ratification of the treaty supported by the pronouncements of the Irish bishop and by resolutions not only of public representative bodies but of important units in the Sinn Fein organization would have weakened the attitude of some of the opponents of the treaty and induced them to vote in its favor.
An estimate made by one of the political leaders on the eve of the adjournment of the Dail gave 58 votes on each side; with four votes on each side, with four votes doubtful or "abstentionist."
One of the leaders of the party favorable to the treaty said to The Associated Press today that he did not believe the vote of any of the men previously ranged against the treaty would be turned in its favor, and that the majority for the treaty, which in any event must be small, must depend on abstentions from voting rather than on the transfer of votes. Rumors of compromise and accommodation, as well as a statement that Eamon DeValera had decided to withdraw his alternative plan no longer are credited here. Mr. DeValera's original idea was to put forward his plan in the event of a rejection of the treaty, but his most intimate counselors say now that he will put it forward in any event.

VACANCIES ON COMMITTEES TO BE FILLED SOON

Made Necessary by Death of Senator Penrose

(By The Associated Press)
WASHINGTON, Jan. 2.—Senate Republican leaders today forecast early action in filling vacancies and making committee changes resulting from the death of Senator Penrose. It was expected that Senator Brandegee of Connecticut, chairman of the committee on committees would issue a call soon, probably by the end of the week, for a meeting of the committee to act on necessary changes.
The rule of seniority has been strictly adhered to in the senate and there were no indications of a departure from this practice.
Committee selections however, are largely in the hands of the powerful committee on committees.
With the practical certainty that Senator McCumber of North Dakota will succeed to the chairmanship of the finance committee over which Mr. Penrose had long presided, there will arise a vacancy in the chairmanship of the committee on pensions, now held by the North Dakota senator. On that committee Senator Smoot of Utah is the ranking Republican and leaders said, he undoubtedly would have the place if he desired it.
Senator Smoot is thus brought into the ranking position on the finance and appropriations committees.
There was the suggestion among Republican leaders that Senator Frelinghuysen of New Jersey would be named as the new Republican member of the finance committee. This selection, it was explained would follow seniority as well as maintain the balance which it has been sought to have on all committees with respect to representation of East and West.
There were few hints as to who would be named to vacancies in the naval, immigration and banking and currency committees occasioned by the death of the Pennsylvania senator. If the seniority rule is followed however western senators will be given places on the naval and banking and currency committees and an eastern man will be added to the immigration committee.
Senators said that the change in the chairmanship of the finance committee, now deep in the drafting of a new tariff law would occasion no change in the policy or the goal outlined when the measure reached the committee from the house. It is planned to continue the hearings and enter upon the work of writing the bill as rapidly as can be done. The committee had scheduled a meeting for tomorrow at which Senator Ladd of North Dakota was to present the tariff program of the senate agricultural bloc, but this has been postponed and the committee will convene at the call of Mr. McCumber, probably on Thursday. Tomorrow's session of the senate will be brief Senator Curtis of Kansas, assistant Republican leader announced. It is planned only to adopt resolutions with respect to the death of Senator Penrose and then adjourn.

CONDITIONS IN BUSINESS SHOW AN IMPROVEMENT

Indicate There is a Gradual Return to Normal

(By The Associated Press)
WASHINGTON, Jan. 2.—Continued upward movement of business and the gradual restoration of normal conditions are indicated in the comparison of reports in the last month with those of the corresponding month of 1920, according to the December review of the economic situation issued tonight by the federal reserve board. Not improvement was found by the board despite the recession of business activity in December as compared with the same month last year.
Manufacturing conditions however, the board reported as far from uniform.
"Freight rates," the board said, "continue as a disturbing factor due to the belief that reductions already announced as affecting some commodities may be much more widely extended in the near future."
Relatively lower prices for cereal and cotton, the board continued, had discouraged trade in the agricultural districts and also had resulted in retarding the process of liquidating frozen loads. Hardware and related lines were also said to be in an unsatisfactory condition but wholesale prices "are showing increased stability."
Unemployment conditions were reported by the board as but little changed.

DOORS OF WHITE HOUSE OPENED TO PUBLIC MONDAY

First New Year's Reception in Nine Years

(By The Associated Press)
WASHINGTON, Jan. 2.—President and Mrs. Harding threw the White House doors open to the public today for the first New Year's reception held there for nine years. The number responding to the general invitation was officially estimated at 6,500 many of whom stood for hours in a biting wind and in a slowly moving column of fours which extended for blocks from the Pennsylvania Avenue portico.
The President and Mrs. Harding met and shook hands with all, a physical feat of no mean magnitude and one from which they showed more than a few signs of strain at 4 o'clock when the last person in the line had passed.
The official section was received from 11 to 1 o'clock and there were approximately 2,000 participating in it, headed by the cabinet, the diplomatic corps, members of congress, army and navy officers and the officials of the government establishments. The brilliant uniforms and gala dress kept the big state rooms of the White House full of color while the curving driveways were jammed with automobiles. The numbers were swelled by the delegates and attendants upon the arms conference.
The gates of the White House enclosure were swung back at 2 o'clock for the public to enter and led by a small boy the head of the long column swept forward to the pillared entrance. A red-coated marine orchestra began as the procession moved on. The big doors were propped back and for two hours the crowd moved thru the massive entrance.
Kept Hands in Sight.
Secret service men, ushers and gold corded military aides cut the quadruple line down to single file, once it was within the entrance. Under the insistent instructions of "keep your hands in sight" many developed a tendency to put both hands out in front above the waist line and hold them there. Uniformed police meanwhile combed the columns outside for cameras.
The presidential party stood in the oval blue room just out of hearing of the orchestra and the visitors passed at the rate of 30 or 40 a minute. The crowd was thoroughly cosmopolitan. The children of whom there were many, were given special attention.
"Hello, Dearly," the president said to one tot who was passing on a paternal shoulder.
The next moment the flickering line disclosed four small negroes marshalled ahead of their mother. "Why, look who's here," the president exclaimed as he bent over and smiled into the flashing teeth and rolling eyeballs that were sweeping by.
"How are you youngsters?"
The White House reception was not the only one held in Washington today. The vice president and Mrs. Coolidge were at home to several hundred guests, while cabinet officials were at home to their official associates and friends. Secretary and Mrs. Hughes gave a breakfast to the diplomatic corps at the Pan-American Union building at 12:30 p. m., while Secretary Weeks, Denby, Wallace and Hoover received at their homes.

ASK INDICTMENT OF SHERIFF FOR ROBBERY OF BANK

Bond County Officer Held For Panama Bank Robbery

(By The Associated Press)
HILLSBORO, Ill., Jan. 2.—Indictment of Sheriff John W. Wilson of Bond county for complicity in connection with the \$31,000 robbery of the Panama State Bank December 12, will be asked by the Montgomery county grand jury, State's Attorney Raimy announced tonight in recalling the grand jury to meet January 5.
Sheriff Wilson was arrested following a confession by Mrs. Jerry Brown, in whose "house in the woods" the loot is said to have been divided and a share set aside for the Bond county sheriff. Mrs. Brown said she made the confession because her husband disappeared after receiving \$700 for the use of their house as a meeting place for the robbers.
Four men besides her husband named by Mrs. Brown were arrested. They included Ben Batleson, a constable, Paul Durling and Johnson Mayfield, all of Greenville.

BRIDEGROOM IS LEFT WAITING AT THE CHURCH

Fiance Becomes Suddenly Ill and Wedding is Postponed

(By The Associated Press)
CHICAGO, Jan. 2.—After hundreds of Chicago society folk had gathered at the Fourth Presbyterian church here today to witness the wedding of Miss Mary Landon Baker and Allister McCormick, leaders in the younger social set, it was announced, that, owing to the sudden illness, of Miss Baker, a postponement of the marriage was necessary.
As those in the crowded church awaited the appearance of the wedding party and as the organist played a prelude to the wedding march, Miss Baker, daughter of Alfred L. Baker, wealthy broker, was under the care of a physician at her home. She had suffered a nervous collapse yesterday. Today she was prepared for the ceremony to the point of having dressed in her wedding gown, when she broke down and took to her bed.
In the meantime the church organist repeated the prelude several times as the guests and wedding attendants waited. Then Rev. Dr. John Timothy Stone announced the postponement.
"My daughter is of a very nervous temperament," Mr. Baker said tonight. "She became ill on Sunday. Today she was ill but got up and dressed in her wedding gown when she collapsed. This is merely a postponement."
No statement was forthcoming from Mr. McCormick, whose parents, Mr. and Mrs. L. Hamilton McCormick, recently issued a denial to rumors that the engagement of their son was broken.

SECRET AGREEMENT ALLEGED BETWEEN JAPS AND FRANCE

Charge is Made by Unofficial Delegation of Far Eastern Republic—Is to Perpetuate Japanese Control in Siberia—Albert Sarrault Denies the Charges in Letter to Hughes

(By The Associated Press)
WASHINGTON, Jan. 2.—While practically all the machinery of the arms conference stood still over the New Year's holiday, the unofficial delegation of the far eastern republic took advantage of the lull to press their charges of a secret French-Japanese understanding for perpetuation of Japanese control in Siberia.
The far eastern delegates declared that proof of their charges, already denied by both the French and Japanese delegates could be obtained by examination of original documents in the archives of the far eastern government at Chita. They suggested that such an inquiry be made by American consular officials, so that the results might be known to the conference when it takes up consideration of Siberian problems.
Albert Sarrault, head of the French delegation, has formally notified Secretary Hughes, as chairman of the conference, that the charges were wholly without foundation in fact. The French government, M. Sarrault said in a written communication to the conference head, had entered into no commitments regarding Siberia except those of which the United States already was aware.
The inclination in conference circles was not to take the development very seriously. At the same time the accusations attracted widespread attention.
The naval experts alone worked thru the holiday, studying the technical details remaining to be settled in connection with the naval limitation agreement. It was said tonight that the settlement probably could be cleared away within a few days. If questions of policy raised by the submarine regulation proposals can be settled in time the conference leaders believe the five power treaty for naval limitation can be put into definite form during the present week.
Tomorrow the naval experts will continue their work. The subcommittee appointed to formulate a new tariff program for China also will hold a meeting.
Various other naval and far eastern questions will occupy the attention of the other delegates in informal conferences.
The question of proposed restrictions on submarine warfare is regarded by all the delegations as the most troublesome of the naval problems remaining unsolved.
The first of the Root submarine resolutions reaffirming adherence to the existing principles of international law has already been accepted by the five powers; but the second and third, proposing still more stringent restrictions on the use of underwater craft, are leading to much controversy.

CON CON DELEGATES ARE GATHERING FOR ANOTHER WRANGLE

Still Far Apart on Cook County Legislative Quota

(By The Associated Press)
SPRINGFIELD, Ill., Jan. 2.—Delegates to the two year old constitutional convention which reconvenes tomorrow arrived in Springfield tonight in a state of uncertainty over the solution of the question of Cook county's legislative quota almost as great as when the convention broke up in a disagreement over the matter more than a year ago.
"Last ditchers," for the county representation plan, led by Lee Mitchell of Aurora, and said to be irreconcilable to any proposal other than the county plan it was said tonight favored a motion to recess until after January 23, when six vacancies will be filled by special elections. They hope to gain four of the six new votes.
The anti-saloon league, an unqualified supporter of the county representation plan for limiting Cook county in the lower house, was said to be urging delay until after the special elections.
Despite these efforts to postpone the convention further many downstate delegates who are staunch supporters of a plan to restrict Cook county's power, will not vote for another recess, it was said tonight.
President Woodward called a meeting of the rules committee tonight to map out tomorrow's program. As the committee met it was apparent that they would recommend immediate consideration of the legislative article.

Held Under \$20,000 Each for Iuka Theft

(By The Associated Press)
IUKA, Ill., Jan. 2.—Three brothers, Earl, Edward and Lex Hall of Florida, were this afternoon identified as the robbers of the State bank of Iuka, who escaped with \$20,000 on December 20 after a thrilling chase led by Miss Mildred Kelly, a bank employee. BIG BANK MERGER IN CHICAGO MONDAY

INSTITUTIONS SOLD WHOSE RESOURCES TOTAL \$85,000,000

Sale Comes After An Examination Shows
That Assets Have Been Impaired by Bad
Loans and Investments—All the Depositors
Have Been Fully Protected in the Deal

(By The Associated Press)
CHICAGO, Jan. 2.—Two Chicago banks with resources of more than \$85,000,000 were sold tonight after the Chicago Clearing House committee had conducted an examination and found their assets had been impaired by bad loans and investments.

After two days' negotiations the Fort Dearborn National Bank and the Fort Dearborn Trust & Savings Bank were purchased by the Continental & Commercial National Bank and Continental & Commercial Trust & Savings Bank.

Members of the Clearing House committee pooled guarantees totalling \$2,500,000 to protect depositors against any loss.

The clearing house announced that after a special examination of the Drovers National Bank and the Drovers Trust & Savings Bank, owned by the same interests as the Fort Dearborn banks, both institutions had been found to be solvent. All directors representing the old Fort Dearborn interests in the Drovers Bank resigned and were replaced by new men.

DAIL EIREANN TO RESUME SESSIONS ON PEACE TREATY

No Change in Lineup
During Christmas
Recess

(By The Associated Press)
DUBLIN, Jan. 2.—Virtually all the members of the Dail Eireann had arrived in Dublin tonight for the resumption of the sessions of the Dail tomorrow to give further consideration to the peace treaty with Great Britain. As far as could be gathered from conversation with the members tonight, the Christmas recess had not materially altered the lineup for and against the treaty.

It had been supposed the campaign in the country in favor of ratification of the treaty supported by the pronouncements of the Irish bishop and by resolutions not only of public representative bodies but of important units in the Sinn Fein organization would have weakened the attitude of some of the opponents of the treaty and induced them to vote in its favor.

An estimate made by one of the political leaders on the eve of the adjournment of the Dail gave 58 votes on each side; with four votes on each side; with four votes doubtful or "absentminded." One of the leaders of the party favorable to treaty said to The Associated Press tonight that he did not believe the vote of any of the men previously ranged against the treaty would be turned in its favor, and that the majority for the treaty, which in any event must be small, must depend on abstentions from voting rather than on the transfer of votes. Rumors of compromise and accommodation, as well as a statement that Eamon Devolera had decided to withdraw his alternative plan no longer are credited here. Mr. Devolera's original idea was to put forward his plan in the event of a rejection of the treaty, but his most intimate counsellors say now that he will put it forward in any event.

VACANCIES ON COMMITTEES TO BE FILLED SOON

Made Necessary by
Death of Senator
Penrose

(By The Associated Press)
WASHINGTON, Jan. 2.—Senate Republican leaders today forecast early action in filling vacancies and making committee changes resulting from the death of Senator Penrose. It was expected that Senator Brandegee of Connecticut, chairman of the committee on committees, would issue a call soon, probably by the end of the week, for a meeting of the committee to act on necessary changes.

The rule of seniority has been strictly adhered to in the senate and there were no indications of a departure from this practice.

Committee selections however, are largely in the hands of the powerful committee on committees.

With the practical certainty that Senator McCumber of North Dakota will succeed to the chairmanship of the finance committee, over which Mr. Penrose had long presided, there will arise a vacancy in the chairmanship of the committee on pensions, now held by the North Dakota senator.

On that committee Senator Smoot of Utah is the ranking Republican and leaders said, he undoubtedly could have the place if he desired it.

Senator Smoot is thus brought into the ranking position on the finance and appropriations committees.

There was the suggestion among Republican leaders that Senator Frelinghuysen of New Jersey would be named as the new Republican member of the finance committee. This selection, it was explained, would follow seniority as well as maintain the balance which it has been sought to have on all committees with respect to representation of East and West.

There were few hints as to who would be named to vacancies in the naval, immigration and banking and currency committees occasioned by the death of the Pennsylvania senator. If the seniority rule is followed however, western senators will be given places on the naval and banking and currency committees and an eastern man will be added to the immigration committee.

Senators said today that the change in the chairmanship of the finance committee, now deep in the drafting of a new tariff law would occasion no change in the policy or the goal outlined when the measure reached the committee from the house. It is planned to continue the hearings and enter upon the provisions of the bill as rapidly as can be done. The committee had scheduled a meeting for tomorrow at which Senator Ladd of North Dakota was to present the tariff program of the senate agricultural bloc, but this has been postponed and the committee will convene at the call of Mr. McCumber, probably on Thursday.

Tomorrow's session of the senate will be brief Senator Curtis of Kansas, assistant Republican leader announced. It is planned only to adopt resolutions with respect to the death of Senator Penrose and then adjourn.

These institutions for the purpose of ascertaining their condition.

"The result of these examinations is such as to warrant the committee in saying that in its opinion these banks are absolutely solvent and entitled to the full confidence of their customers and the public in general."

"In this connection, the committee calls attention to the fact that all the directors of these institutions, representing the Tilden interests, have resigned from the banks' boards."

Have New Directors
The Drovers banks have replaced the directors who resigned with Henry H. Dawes, G. F. Swift, Jr., vice-president of Swift & Co.; Henry Veeder, general counsel for Swift & Co.; John P. Oleson, vice president of the First National bank and Alexander Robertson, vice president of the Continental & Commercial National Bank.

Both the Fort Dearborn National Bank and the Fort Dearborn Trust & Savings bank, and the Drovers banks have been fully protected and that owing to the arrangement entered into by the Chicago Clearing House association with the Continental & Commercial National Bank and the Continental & Commercial Trust & Savings bank, they will suffer no loss.

"Inasmuch as Edward Tilden and company is interested as a minority stockholder in the Drovers National Bank and the Drovers Trust & Savings bank, the clearing house committee has made a special examination of

CONDITIONS IN BUSINESS SHOW AN IMPROVEMENT

Indicate There is a Gradual
Return to Normal

(By The Associated Press)
WASHINGTON, Jan. 2.—Continued upward movement of business and the gradual restoration of normal conditions are indicated in the comparison of reports in the last month with those of the corresponding month of 1920, according to the December review of the economic situation issued tonight by the federal reserve board. No improvement was found by the board despite the recession of business activity in December as compared with the same month last year.

Manufacturing conditions however, the board reported as far from uniform.

"Freight rates," the board said, "continue as a disturbing factor due to the belief that reductions already announced as affecting some commodities may be much more widely extended in the near future."

Relatively lower prices for cereal and cotton, the board continued, had discouraged trade in the agricultural districts and also had resulted in retarding the process of liquidating frozen loads. Hardware and related lines were also said to be in an unsatisfactory condition but wholesale prices "are showing increased stability."

Unemployment conditions were reported by the board as but little changed.

DOORS OF WHITE HOUSE OPENED TO PUBLIC MONDAY

First New Year's Reception in Nine Years

(By The Associated Press)
WASHINGTON, Jan. 2.—President and Mrs. Harding threw the White House doors open to the public today for the first New Year's reception held there for nine years. The number responding to the general invitation was officially estimated at 6,500 many of whom stood for hours in a biting wind and in a slowly moving column of fours which extended for blocks from the Pennsylvania Avenue section.

The President and Mrs. Harding met and shook hands with all, a physical feat of no mean magnitude and one from which they showed more than a few signs of strain at 4 o'clock when the last person in the line had passed.

The official section was received from 11 to 1 o'clock and there were approximately 2,000 participating in it, headed by the cabinet, the diplomatic corps, members of congress, army and navy officers and the officials of the government establishments.

The brilliant uniforms, and gala dress kept the big state rooms of the White House full of color while the curving driveways were jammed with automobiles. The numbers were swelled by the delegates and attendants upon the arms conference.

The gates of the White House enclosure were swung back at 2 o'clock for the public to enter and led by a small boy the head of the long column swept forward to the pillared entrance. A red-coated marine orchestra began as the procession moved on. The big doors were propped back and for two hours the crowd moved thru the massive entrance.

Kept Hands in Sight.
Secret service men, ushers and gold corded military aides cut the quadruple line down to single file, once it was within the entrance.

Under the insistent instructions of "keep your hands in sight" many developed a tendency to put both hands out in front above the waist line and hold them there. Uniformed police meanwhile combed the columns outside for cameras.

The presidential party stood in the oval blue room just out of hearing of the orchestra and the visitors passed at the rate of 30 or 40 a minute. The crowd was thoroughly cosmopolitan. The children of whom there were many, were given special attention.

"Hello, Dearie," the president said to one tot who was passing on a paternal shoulder.

The next moment the flickering line disclosed four small negroes marshalled ahead of their mother.

"Why, look who's here," the president exclaimed as he bent over and smiled into the flashing teeth and rolling eyeballs that were sweeping by.

"How are you youngsters?"

The White House reception was not the only one held in Washington today. The vice president and Mrs. Coolidge were at home to several hundred guests, while cabinet officials were at home to their official associates and friends.

Secretary and Mrs. Hughes gave a breakfast to the diplomatic corps at the Pan-American Union building at 12:30 p. m., while Secretary Weeks, Denby, Wallace and Hoover received at their homes.

BRIDEGROOM IS LEFT WAITING AT THE CHURCH

Fiance Becomes Suddenly
Ill and Wedding is
Postponed

(By The Associated Press)
CHICAGO, Jan. 2.—After hundreds of Chicago society folk had gathered at the Fourth Presbyterian church here today to witness the wedding of Miss Mary Landon Baker and Allister McCormick, leaders in the younger social set, it was announced, that, owing to the sudden illness, of Miss Baker, a postponement of the marriage was necessary.

As those in the crowded church awaited the appearance of the wedding party and as the organist played a prelude to the wedding march, Miss Baker, daughter of Alfred L. Baker, wealthy broker, was under the care of a physician at her home. She had suffered a nervous collapse yesterday. Today she was prepared for the ceremony to the point of having dressed in her wedding gown, when she broke down and took to her bed.

In the meantime the church organist repeated the prelude several times as the guests and wedding attendants waited. Then Rev. Dr. John Timothy Stone announced the postponement.

"My daughter is of a very nervous temperament," Mr. Baker said tonight. "She became ill on Sunday. Today she was ill but got up and dressed in her wedding gown when she collapsed. This is merely a postponement."

No statement was forthcoming from Mr. McCormick, whose parents, Mr. and Mrs. L. Hamilton McCormick, recently issued a denial to rumors that the engagement of their son was broken.

OF SHERIFF FOR
ROBBERY OF BANK

Bond County Officer Held
For Panama Bank
Robbery

(By The Associated Press)
HILLSBORO, Ill., Jan. 2.—Indictment of Sheriff John W. Wilson of Bond county for complicity in connection with the \$31,000 robbery of the Panama State Bank December 12, will be asked of the Montgomery county grand jury, State's Attorney Raimy announced tonight in recalling the grand jury to meet January 5.

Sheriff Wilson was arrested following a confession by Mrs. Jerry Brown, in whose "house in the woods" the loot is said to have been divided and a share set aside for the Bond county sheriff. Mrs. Brown said she made the confession because her husband disappeared after receiving \$700 for the use of their house as a meeting place for the robbers.

Four men besides her husband named by Mrs. Brown were arrested. They include Ben Bateson, a constable, Paul Durling and Johnson Mayfield, all of Greenville.

OPEN HOUSE HELD AT
GOVERNOR'S MANSION

(By The Associated Press)
SPRINGFIELD, Ill., Jan. 2.—Governor and Mrs. Len Small threw open the executive mansion for the annual New Year's reception today and shook hands with hundreds of guests including many delegates to the constitutional convention which reconvenes tomorrow.

In the receiving line with the Governor and Mrs. Small were Lieutenant Governor and Mrs. Sterling, Secretary of State Emerson, Superintendent of Public Instruction Francis G. Blair, and Mrs. Blair.

During the reception Governor Small was presented with an honorary membership in the Springfield Chamber of Commerce.

PHOENIX, Ariz., Jan. 2.—Continued rains in the Bradshaw mountains, north of Phoenix, caused Cave creek to break thru the Arizona canal, the northern boundary of the Salt River valley irrigation district, again tonight.

Flood waters from the creek now are approaching the grand canal, the only large canal remaining between the flood and Phoenix. The water now is within about five miles of the city.

PEORIA MINES WILL
BACK FARRINGTON

Peoria, Ill., Jan. 2.—Three hundred and fifty Peoria district miners in a mass meeting this afternoon voted unanimously to support State President Frank F. F. L. Lewis, international president and pledged their assistance to the striking Kansas miners. Vice President Harry Fishwick addressed the miners.

SECRET AGREEMENT ALLEGED BETWEEN JAPS AND FRANCE

Charge is Made by Unofficial Delegation of
Far Eastern Republic—Is to Perpetuate
Japanese Control in Siberia—Albert Sarrault Denies the Charges in Letter to Hughes

(By The Associated Press)
WASHINGTON, Jan. 2.—While practically all the machinery of the arms conference stood still over the New Year's holiday, the unofficial delegation of the far eastern republic took advantage of the lull to press their charges of a secret French-Japanese understanding for perpetuation of Japanese control in Siberia.

The far eastern delegates declared that proof of their charges, already denied by both the French and Japanese delegates could be obtained by examination of original documents in the archives of the far eastern government at Chita. They suggested that such an inquiry be made by American consular officials, so that the results might be known to the conference when it takes up consideration of Siberian problems.

Albert Sarrault, head of the French delegation, has formally notified Secretary Hughes, as chairman of the conference, that the charges were wholly without foundation in fact. The French government, Mr. Sarrault said in a written communication to the conference head, had entered into no commitments regarding Siberia except those of which the United States already was aware.

The inclination in conference circles was not to take the development very seriously. At the same time the accusations attracted widespread attention.

The naval experts alone worked thru the holiday, studying the technical details remaining to be settled in connection with the naval limitation agreement. It was said tonight that the settlement probably could be cleared away within a few days. If questions of policy raised by the submarine regulation proposals can be settled in time the conference leaders believe the five power treaty for naval limitation can be put into definite form during the present week.

Tomorrow the naval experts will continue their work. The subcommittee appointed to formulate a new tariff program for China also will hold a meeting.

Various other naval and far eastern questions will occupy the attention of the other delegates in informal conferences.

The question of proposed restrictions on submarine warfare is regarded by all the delegations as the most troublesome of the naval problems remaining unsolved.

The first of the Root submarine resolutions reaffirming adherence to the existing principles of international law has already been accepted by the five powers; but the second and third, proposing still more stringent restrictions on the use of underwater craft, are leading to much controversy.

CON CON DELEGATES
ARE GATHERING FOR
ANOTHER WRANGLE

Still Far Apart on Cook
County Legislative
Quota

(By The Associated Press)
SPRINGFIELD, Ill., Jan. 2.—Delegates to the two year old constitutional convention which reconvenes tomorrow after a year's recess arrived in Springfield tonight in a state of uncertainty over the solution of the question of Cook county's legislative quota almost as great as when the convention broke up in a disagreement over the matter more than a year ago.

"Last ditchers" for the county representation plan, led by Lee Mitchell of Aurora, and said to be irreconcilable to any proposal other than the county plan it was said tonight favored a motion to recess until after January 23, when six vacancies will be filled by special elections. They hope to gain four of the six new votes.

The anti-saloon league, an unqualified supporter of the county representation plan for limiting Cook county in the lower house, was said to be urging delay until after the special elections.

Despite these efforts to postpone the convention further many downstate delegates who are staunch supporters of a plan to restrict Cook county's power, will not vote for another recess, it was said tonight.

President Woodward called a meeting of the rules committee tonight to map out tomorrow's program. As the committee met it was apparent that they would recommend immediate consideration of the legislative article.

Held Under \$20,000
Each for Iuka
Theft

(By The Associated Press)
IUKA, Ill., Jan. 2.—Three brothers, Earl, Edward and Lex Hall of Flora, were this afternoon identified as the robbers of the State bank of Iuka, who escaped with \$20,000 on December 20 after a thrilling chase led by Miss Mildred Kelly, a bank employee. The brothers were tonight taken to Salem in default of \$20,000 bond each.

Edward and Lex Hall were identified by bank employees as the two men who forced the cashier and assistant cashier into an ante-room before robbing the bank while Earl was identified as the man who waited outside the bank in an automobile while the robbery was being committed.

Police say other arrests in connection with the robbery may follow.

At the time of the robbery it was reported five men participated in the looting of the bank. The two robbers escaped from possession of two counties after an all night watch December 20. Miss Kelly, a bank employee, organized the posse and led the automobile chase over miles of country roads. The bandits escaped into a woods, when their automobile broke down on a bridge.

OPEN SEASON ON
EUROPEAN CABINETS

(By The Associated Press)
LISBON, Jan. 2.—The cabinet headed by Cunha Leal as premier and minister of finance, has resigned. The probability of the establishment of a military or other dictatorship is being talked of, but nothing in this line has yet developed. The resignation of Cunha Leal was due to incompatibility of opinion between the premier and the members of the political parties concerning the holding of elections.

The cabinet of Cunha Leal was formed December 16.

Manufacturers of both the cheaper and the better grades of cars have announced reductions in prices. In some instances the levels are just as low as before the war. The deflation period in the automobile industry seems to have taken place.

There is talk once more of a serious dry enforcement campaign in Springfield and Sangamon county, judging by what has been accomplished recently in Chicago along this line, such a campaign would succeed even in Sangamon.

The president and Mr. Hughes have branded as silly rumors of disagreement between them and the likelihood of Mr. Hughes' retirement from the cabinet. Possibly these rumors have been started by some of the worthy gentlemen who originally used the president not to appoint Mr. Hughes.

The constitutional convention is to convene again next Tuesday and again take up the work that was entered upon nearly two years ago. It is said that there is a disposition on the part of the majority to push the program of work along rapidly enough to count upon final adjournment by the middle of February. If this is the case the members who are chosen in the special election in six districts Jan. 23, will hardly have a chance to answer roll call.

Some of the real estate dealers are not at all pleased about the new state law which requires them to take out a license, but nearly 2,000 of them have already applied for such permits and the state of Illinois is \$80,000 to the good thereby. There are still several thousand dealers in the state who are expected to take out licenses and the money from them, together with the smaller fees from 15,000 real estate salesmen, will make up a very tidy sum for the state treasury.

A. L. Bowen, in The State Journal, makes the following beautifully phrased reference to the Christmas season:

"The holiday week is the most precious of all the fifty-two weeks of the year. Like a magnet it draws the wanderer back home. In the basest heart it inspires a decent thought or two. The most calloused recall memories of a day that was sweeter, because it had its faith and its hope and its ambitions.

"Christmas is the time of fond reminiscences. For the hour or the day in which we indulge them we are better. The impression may not be lasting, but it was good while it lasted. That was some gain. And this is another thing about Christmas that does not change.

by those governments. To collect that huge sum and return it to the treasury is the biggest single financial problem that confronts the administration. The task will begin when the legislation now pending before congress to create the foreign debt refunding commission, is passed, and the secretary of the treasury and the other commissioners are given the necessary authority to proceed.

When that refunding is accomplished the people can see an end to half of their national debt in regular annual payments of designated amounts from abroad the tax burden will be made correspondingly lighter, and the nation's financial difficulties will have largely disappeared.

President's Team Held California to Scoreless, and Twice Threatened the California Goal Eastern Team's Line Stopped Attack.

Pasadena, Cal., Jan. 2.—From out of the East the Washington team of the East the Washington team came to Pasadena and held

the University of California eleven to a scoreless tie on a muddy, slippery field in the annual Tournament of Roses East vs. West game here today. It was the first time the undefeated Golden Bears had met their equal in two seasons, they having won every game since 1919.

The game was a hard fought even battle all the way, altho the muddy field made fast foot work and accurate passing and punting impossible. The educated toe of Archie Nisbet, California full-

TEXAS AGGIES UPSET CENTRE

Defeat Kentucky Team by Score of 22 to 14—Outplayed Conqueror of Harvard.

DALLAS, Texas, Jan. 2.—One of the biggest upsets of the football season occurred here today when Centre College, conqueror of Harvard and rated as the champion of the south, went down before the Texas A. & M. College, the representatives of the Southwestern conference. The score was 22 to 14 and reflects the closeness of the contest.

Taking the lead within the first three minutes of play when Bartlett of Centre was downed behind his own goal line by Wilson of the Aggies, thus causing safety, the Texans, generally predicted to lose by at least twenty points battled every minute of the four strenuous periods and at times displayed a drive and determination that literally swept the Colonels off their feet. They presented a defense that was well nigh impregnable while on the defense they uncovered a series of tricky and versatile attacks that put the Centre men completely at sea.

Entering the third period with the score still 2 to 0 against them after they had been twice halted in the shadow of the Texans' goalposts in the second period, the Colonels favored by an Aggie fumble on which Tanner recovered, combined with a line buck by Snoddy, scored their first touchdown.

Roberts kicked goal. It then looked gloomy for A. & M. but shortly after the kick off, Miller made an unexpected pass to Evans who raced thirty yards to a touchdown.

McMillan subbing for Morris, kicked goal making the score 9 to 7, in favor of the Texans. From then on A. & M. turned back the Colonels in every style of play and continued to hammer away at the Centre lads. In the third period with the ball on Centre's thirty yard line Wilson circled right end for another A. & M. touchdown and McMillan again kicked goal. The final period witnessed the last Texas score when "Bo" McMillan after being tackled behind the line made a blind pass. Winn intercepted for A. & M. and scored forty yards across the Centre goal.

The try at goal failed. The Colonels exhibited their last flicker of offensive strength in the closing minutes of play when a neat close forward pass, McMillan to Covington to Snoddy followed by Roberts' goal kick brought their score up to 14.

Snoddy, Covington and Gordy were the Colonels' outstanding players. For A. & M., Wilson at left end was the chief figure in A. & M.'s scores and was ably supported by his fellow linemen. Sanders contributed a large share of A. & M.'s offense until he was forced from the game in the third period because of a bad leg.

Approximately 12,000 persons watched the game. The weather was good so far as temperature went but a strong wind made forward passes and punts difficult to handle. The lineup:

PIONEER WOMAN DOCTOR IS DEAD

SEOUL, Korea.—(By the A. P.)—Mrs. Underwood, widow of Horace G. Underwood, was buried here recently having died at the age of seventy. With her husband who died a few years ago after a lifetime of missionary work in Korea, she had been a worker in the Korean mission field since 1884.

Mrs. Underwood came to Korea as a pioneer woman doctor and was at one time attendant on the late empress of Korea. She was married in Korea to Doctor Underwood, who was a brother of the manufacturer of that name, and was associated with her husband in educational work in Korea. Her son, Rev. H. H. Underwood recently laid the corner-stone of Underwood hall, one of the buildings of the Chosen Christian college, which is a monument to Dr. Underwood's efforts in the cause of higher education for the Koreans.

WHEAT TO BE USED AS A STABILIZING UNIT BUDAPEST.—(By the A. P.)—Wheat as a stabilizing unit of exchange instead of money based on imaginary reserves of gold and silver was suggested by Secretary of State Vician to the syndicate of Hungarian farmers at a recent meeting.

He proposed that banknotes of the value of a "quintal" or 220 pounds of wheat be issued. Wheat as a standard of value already has received some recognition. Many farm leases are made on that basis and in the new agrarian reform measures, taxes have been specified as payable in wheat values.

GIRL HAD PAINFUL TIMES

Mothers—Read This Letter and Statement Which Follows

Portland, Indiana.—"I was troubled with irregularity and constipation and would often have to lie down because of pains. One Sunday my aunt was visiting us and she said her girls took Lydia E. Pinkham's Vegetable Compound and got well, so mother said she would let me try it. It is doing me good and I praise it highly. You are welcome to use this letter as a testimonial."—STELLA NEWTON, R. R. 8, Portland, Indiana.

Mothers—You should carefully guard your daughter's health. Advise her of the danger which comes from standing around with cold or wet feet, from lifting heavy articles, or overworking. Do not let her overstudy. If she complains of headache, pains in back or lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, give her careful attention. Lydia E. Pinkham's Vegetable Compound is an excellent medicine for your daughter to take, as it is especially adapted to relieve just such symptoms. Remember it contains nothing that can injure her.

**PUT ON BONNET
OF SPINSTERHOOD**

PARIS.—(By The Associated Press.)—St. Catherine's Day is the day when all young French girls who have attained the age of 25 without finding a husband put on the bonnet of spinsterhood altho this does not necessarily mean that they forthwith abandon all hope of finding a suitable mate.

The girls who work in the Paris dressmaking establishments made high holiday on hat day, and those among them who had become "St. Catherine's" wore lace bonnets made by their comrades.

In groups they walked along the boulevards, generally five or six abreast, arms linked, with the bonnet wearers in the front rank and all their escort of friends following. The working girls vied with each other in the fancy costumes they wore.

Wedding groups are popular, with the "bride" beautifully dressed in silks, accompanied by a "bride-groom" in comic costume.

The Three Musketeers, with cloak and sword, slouched hat and white feather, were to be seen walking proudly along the boulevards followed by their admiring friends, but the Musketeers' voices proclaimed them girls.

**WOULD CENTRALIZE
EDUCATIONAL WORK**

Head of State Educational Commission Wants State Board of Education.

SPRINGFIELD, Ill.—(By A. P.)—Creation of a state board of education, to put Illinois up with the first of the states in education, was urged here today by A. M. Shelton of Crystal Lake, president of the newly appointed Illinois Educational commission. Addressing the Illinois State Teachers association on this subject Mr. Shelton said:

"In spite of the fact that Illinois has been fast attaining supremacy in agriculture, manufacture, commerce and wealth, it has been temporizing and halting in school affairs. Our financial resources, educational ideals and state aspirations have failed to give Illinois a vigorous state school policy.

"To pull Illinois to the top, and to keep Illinois consistently near the top with other leading states, our entire school problem must be attacked from a state viewpoint and with state concern high in mind.

"To do this there should be created a school council or board, composed of lay members with the state superintendent as its administrative officer, empowered to work only in the field of administrative organization.

"Such a board would place at the disposal of both the lay and the professional as well as the legislature, a continuous state school policy for the interrelation, co-ordination and expansion of the various school groups and subdivisions.

"It would be of material aid to crystallize the thoughts and the experiences of teachers, board members and others not directly interested in school matters. Proposed legislation before it was cast into bills would be tested in the light of office and class room experiences. Such action would help to fix the responsibility for both school legislation and appropriations."

"A state educational lay board would be satisfactory to the general public, Mr. Shelton said, because it would be an avenue of approach that would be intermediary between the professionals and citizen, not directly connected with school work.

"It would be engaged in a continuous task that could never be completed," Mr. Shelton said. "With such a board, there would be no disposition for either the teacher or layman to approach any school problem as an attorney for some special group, to prove something, but rather as a student in the interest of all groups, to find out the facts. Both the legislature and interested citizens in school matters would have this board placed at their mutual disposal. It would be the means of intensive co-operation for teachers, civic groups and members of the legislature for the crystallization of public sentiment for better schools."

**BIG BANK MERGER
IN CHICAGO MONDAY**

(Continued from Page One.)
Attorneys for Edward Tilden & Co. issued a statement tonight saying the company is amply solvent and has a large margin of good assets in excess of all its liabilities, but that a portion of the assets are not readily realizable, tho perfectly good.

"We expect that all creditors will be paid in full," the statement adds.

Have Large Assets

As a result of the merger the Continental & Commercial National bank and its affiliated trust company have combined assets of nearly \$525,000,000.

Announcement of the completion of the deal closed three days and nights of almost constant work for several score of Chicago bankers and hundreds of clerks. First intimation of trouble at the Fort Dearborn banks came last Friday night when hundreds of clerks worked thru the night there and at the First National bank next door. The First National, according to a rumor which officials later confirmed was considering the purchase of the Fort Dearborn banks.

The negotiations were broken off shortly after noon today and the clearing house committee then called in George M. Reynolds and other officials of the Continental & Commercial banks who also were ready to make an offer.

A meeting was held at the First National bank and at 5:45 p. m. the directors and officers of the Fort Dearborn banks were called in. Forty-five minutes later the deal was closed and at 7 o'clock the clearing house association met to receive its committee's report and issue the statements to the public.

William A. Tilden, president of the Fort Dearborn banks, was a brother of Edward Tilden, who died in 1915. Associated with him in their management was Averille Tilden, son of Edward Tilden.

Stockholders in the Fort Dearborn banks, according to a list published last June, are scattered thruout the country from New York to San Francisco and from northern Michigan to Oklahoma, altho the majority live in Chicago.

SANATORIUM ADDITION INSPECTED BY MANY

Many Visitors Shown Thru Large Addition to New Home Sanatorium on West Morgan Street Yesterday

Many Jacksonville people accepted the invitation from Dr. A. H. Kennelbreck to inspect the large addition just completed to the New Home Sanatorium on West Morgan street.

The visiting hours were from 2 until 4 o'clock in the afternoon and from 7 until 8 o'clock in the evening, and all visitors were escorted thru the rooms and departments of the addition and the apparatus and equipment was explained to them.

The chemical laboratory is located in the basement and all the equipment is of the most improved type, much of it being operated by electricity. The dining room is especially attractive as the panels of the walls are beautifully tinted and the ceiling is finished in Old Mission effect. Dumb waiters operate between the dining room and the kitchen, which is on the ground floor. The furnishings and equipment of the three floors and basement indicate not only the great care taken in the selection but also the willingness to spend the necessary amount of money in order to equip the hospital in the best way possible.

While all the rooms are pleasant and furnished comfortably, in a few of them still larger expenditures have been made for furnishings and with fine effect. Especial attention has been given to the obstetric room and the entire arrangement there tends not only to safety but to comfort as well. The equipment there is in accord with that in the rest of the addition and follows the most approved and modern ideas. The same thing may be said of the operating room which is a model of its kind. There an indication is found that the presence of friends or relatives will be welcome as a railing has been provided, back of which spectators are expected to stand.

There is a spacious sleeping porch at the south side of each of the floors and the sleeping porches, like the rooms, are handsomely furnished.

Due attention has been given to fire protection and an automatic fire extinguisher has been established on each floor. There are also water pipe connections there for additional protection.

The equipment aside from the hospital itself is worthy of mention, for a small refrigerating plant has been installed and the great range is arranged on one side for gas and on the other for coal or wood.

In connection with the opening last night an excellent musical program was given.

FEDERAL AID ROAD BUILDING PROJECTS

U. S. Department Ready to Push Work in Order to Help With Unemployment—States Must Maintain Roads.

To relieve the unemployment situation, the Bureau of Public Roads, United States Department of Agriculture, is prepared to do everything possible to expedite Federal-aid road building project that can provide work or that will shorten the winter season of inactivity in road building in the northern states. Projects will be approved without delay for the building of roads which the states and the district engineers of the department agree will come within the Federal-aid program.

There is available at the present time an unexpended balance from the old Federal-aid appropriation of \$53,702,000 in Federal-aid funds yet to be apportioned among the states. In addition, under the law passed November 9 last, the sum of \$24,375 became available at once and there also became available January 1, \$48,750,000, a total of 126,827,000.

In approving projects under the recent law the department will keep uppermost in mind the provision of the 1921 law which states that "the Secretary of Agriculture shall give preference to such projects as will expedite the completion of an adequate and connected system of highways, interstate in character." At the same time the importance of local traffic will not be minimized. To care for that class of traffic will always be, in general, the first objective of highway improvement. Wherever possible a choice of highway will be made which, regardless of the order of improvement, will eventually join into a well-conceived network, crossing both county and state boundaries. Thus, while the immediate needs of a state or district may determine priority of construction, each new link will bring nearer the completion of the system as a whole.

Each district engineer of the department is fully informed as to the procedure for interim projects which is so simplified that if important projects are chosen in good faith there will be no delay in obtaining approval for them.

Winter plans for the coming road-building season are under preliminary consideration. In the west states the major lines of highways will be fixed largely by topography. In many instances long routes will be determined by single strategic points, such as a mountain pass. Because of this necessity, the department is desirous of having the states affected reach agreements as to their plans which will be based on the future service that is to be rendered, not only to the local but also to the interstate and national traffic.

The greatest traffic problems lie in the eastern states, some of which already have a large mileage of improved roads. It will be a comparatively short time, because of new construction and better maintenance, until the transcontinental tourist will be provided with roads that are entirely serviceable thruout the seasons of the year when other conditions favor such traffic.

In Densely Settled Sections.

The really serious problems lie around and between large centers of population. Rapid multiplication in the numbers of automobiles and motor trucks—the number in 1921 being 18 times what it was in 1910—have accentuated the seriousness of the problem. For roads built previous to the advent of the dense motor traffic, alignments, width, and types were planned for use of the slower, lighter, horse drawn vehicle. Traffic lines are from town to town and generally follow thru the most congested parts of population centers. Some of the principles which confront the department and the states for consideration in planning nation-wide and connected systems of highways include the following:

The development of parallel lines to divide heavy traffic thru the thickly populated districts.

The development of direct, short-mileage routes, although on these routes there may be at this time a less amount of improved roads than on routes followed at present.

The building of inner or outer belt lines around congested centers.

The reconstruction of weak sections to accommodate heavy truck traffic.

The widening of main routes near the largest cities or between cities where the distance is short enough to carry uniform traffic.

Proper connections with the routes of adjoining states.

States Must Maintain the Roads

To insure maintenance of the roads when built, the strongest possible requirements have been written into the law. "The term maintenance," the law states, "means the constant making of needed repairs to preserve a smooth surfaced highway."

The department hopes that it will not be required to take over a single mile of highway for maintenance. That is the function of the state, once the road is built with the aid of federal funds. But the responsibility for maintenance is imposed by the law upon the department and this provision of the law will be enforced to the letter.

The department will not consider that the states are living up to the maintenance requirements of the act until they establish a system of patrol of some form that places direct and continuous responsibility upon some one for the condition of each mile of road. The word "patrol" is not used in the technical sense to distinguish it from the so-called "gang" system; but rather to designate the

ARGUMENT ENDS IN SHOOTING AFFRAY

Fred Shannon Shoots Paul Blue Three Times—None of Wounds Serious—Shannon Held at the Police Station.

Paul Blue is a patient at the New Home Sanitarium suffering from two bullet wounds in the head and one in the neck and Fred Shannon is held at the police station as his assailant, as the result of a shooting affray which occurred at the corner of Anna and South West streets about 8 o'clock Sunday night.

Shannon used a Savage 22 automatic and fired five times at Blue, three of the charges taking effect. The most serious wound is in the neck on the left side and narrowly escaped cutting the jugular vein. One bullet struck Blue in the forehead and another struck him behind the ear both bullets glancing off the skull, inflicting only scalp wounds.

Shannon after shooting Blue went to the home of his sister and called up the police station telling them what occurred and saying he was ready to surrender to the officers.

Captain Elliott and Patrolmen Williams and Blue went to the number given and Shannon was taken to the station and locked up.

At the police station Shannon told the officers that he had had trouble with Blue and Carlton Wheeler over some furniture to which it is said, all lay claim. The men first met about 7 o'clock at the southwest corner of the square and had an argument.

At that time Patrolman Blue came up and stopped the argument, telling the men to go home and get off the square. Shannon says he went to his cleaning and pressing establishment in the Opera house building and later went to his home.

Says Men Came to House. According to his story Blue and Wheeler came to his home shortly after his arrival and demanded that he come out. He claims a fight ensued in which he was cut by a knife in the hands of one of the men. It was then that he shot Blue. Wheeler, however, took to his heels and made his getaway.

At the New Home Sanitarium, Dr. A. H. Kinnibrew gave the necessary surgical attention. The bullet was removed from the wound in the neck and yesterday the injured man was much improved and probably will be out in a few days.

To Chief Kiloran yesterday Blue stated that he never went near Shannon's house and said he was over in front of the Economy grocery store at the corner of South West and Anna streets when Shannon shot him.

Blue so far has refused to swear out a warrant for Shannon's arrests. However, Chief Kiloran said if he still refused to do so that he would get a warrant for Shannon today.

REVENUE LAW CHANGES NOW IN EFFECT

Collector Schwahn Tells About Changes in Measure Tax Pay-ers Will Appreciate

G. W. Schwahn, collector of internal revenue, in this district, yesterday issued the following statement relative to changes in the income tax law.

"In response to numerous inquiries, taxpayers are advised certain taxes, among them the so-called 'nuisance' and 'luxury' taxes, are repealed, effective Jan. 1, 1922, by the revenue act of 1921.

Patrons of soda-water fountains, ice cream parlors and 'similar places of business' no longer are required to pay the tax of one cent for each ten cents or fraction thereof on the amount expended for sodas, sundae, 'on' and similar articles of food or drink. The small boy may rejoice in the fact that an ice-cream cone does not cost an extra penny. The tax imposed by the revenue act of 1921 is on 'beverages and the constituent parts thereof' and is paid by the manufacturer.

The tax on the transportation of freight and passengers is repealed, effective Jan. 1, 1922, also the tax paid by the purchaser on amounts paid for men's and women's wearing apparel (shoes, hats, caps, neckwear, shirts, hose, etc.) in excess of a specified price.

Taxes imposed under section 904 (which under the revenue act of 1918 included the taxes on wearing apparel) are now confined to a five per cent tax on the following articles: Carpets, on the amount in excess of \$4.50 a square yard; rugs, on the amount in excess of \$6 a square yard; trunks, on the amount in excess of \$35 each; valises, traveling bags, suit cases, hat boxes used by travelers and fitted toilet cases, on the amount in excess of \$25 each; purses, pocketbooks, shopping and hand bags, on the amount in excess of \$5 each; portable lighting fixtures, including lamps of all kinds, on the amount in excess of \$10 each; fans, on the amount in excess of \$1 each. These taxes are included in the manufacturers' excise taxes, and are payable by the manufacturer, producer or importer, and not by the purchaser, as required by the revenue act of 1918. The manufacturer may reimburse himself, by agreement with the purchaser, by quoting the selling price and tax in separate and exact amounts, or by stating to the purchaser in advance of the sale, what portion of the quoted price represents the price charged for the article, and what portion represents the tax.

The taxes on sporting goods, (tennis rackets, fishing rods, baseball and football uniforms, fishing rods, etc.) are repealed, also the taxes on chewing gum, portable electric fans, thermostatic containers, articles made of fur, and toilet articles and musical instruments.

The tax on sales of jewelry, real or imitation, is five per cent, and is payable by the vendor. The tax on the sale of works of art (paintings, statuary, porcelain and bronzes) is reduced from ten per cent to five per cent. This tax, payable by the vendor, applies except in the original sale by the artist, or to an educational institution or public art museum or a sale by a recognized dealer in such articles to another dealer for resale.

When payable by the manufacturer or vendor, taxes must be in the hands of the collector of internal revenue on or before the last day of the month following the month in which the sale was made.

Following are forms for making returns and regulations relating to taxes which may be had on application to offices of collectors of internal revenue: manufacturers' excise tax form 728 revised, regulations 47, revised; tax on works of art and jewelry, form 728A, revised, regulations 48, revised; tax on beverages, form 726, revised, regulations 52, revised."

AGED GREENE COUNTY RESIDENT BURIED

Funeral of Mrs. Mary E. Harrison Held Monday Afternoon at White Hall.

White Hall, Jan. 1.—The death of Mrs. Mary E. Harrison, one of the most beloved pioneer women of White Hall, occurred at 12:30 a. m. Saturday, following an illness of only two days with pneumonia. Her age was nearly 80 years. Funeral services were held in the Christian church at 2 o'clock Monday, the discourse being by Rev. Charles A. Ross, and the burial was in the White Hall cemetery.

The deceased was a native of Alexander, Mo., and there she and William A. Harrison were married in 1862. They immediately came to Greene county, Illinois, and were located at Carrollton three years before coming to White Hall. The family home on Carr street was occupied 37 years ago, and there the four sons and one daughter were reared, as follows: Robert H., White Hall; William H., Canton; Lovell C. and Jesse, White Hall; Emma, wife of O. V. Thurman, Milton. The father died in February 1897, since which time the mother has continued to reside in the home place with her son Jesse. There are four grandchildren. The deceased is also survived by two sisters, Miss Amanda Calvert, Cahokia, Mo., and Mrs. Ada Rosenberger, St. Louis, and one brother, Henry E. Calvert, Los Angeles.

She has been a member of the Christian church for a great many years, uniting soon after coming to White Hall in 1865.

MRS. ANNA E. HUGHES, Chicago, Ill.

Mrs. Anna E. Hughes, 22 West Elm street, Chicago, an artist who enjoys a wide and enviable reputation for skill in china painting, in relating the facts of her remarkable experience with Tanlac says:

"I haven't enjoyed such good health or felt so well in every way in years as I do now. Before I took Tanlac I was so run down that half an hour at my work would leave me completely out and I was actually so nervous and weak at times the brush would fall from my hands and I would have to quit work for the rest of the day. Every night I would lie awake for hours, miserable and nervous.

"My improvement after the first few doses of Tanlac was rapid and constant. I'm happy to say I'm well and strong now and feel better than in twenty years. Tanlac deserves every word of praise I can give it."

Tanlac is sold in Jacksonville by Shreeve's drug store and Coover's drug company and by leading druggists everywhere—adv.

THAT DULL ACHING

Don't worry and complain about a bad back. Get rid of it! For weak kidneys, lame and aching backs, your neighbors recommend Doan's Kidney Pills. Ask your neighbor.

Mrs. S. M. Hussey, 534 South East street, Jacksonville, says: "I had a dull, dragging ache thru the small of my back. I felt miserable and languid most of the time and my housework was a burden. My kidneys acted irregularly and caused me annoyance. I had dizzy spells, too. I heard that Doan's Kidney Pills were good for this trouble so I got some at Shreeve's drug store and began using them. It didn't take long for this fine old remedy to have me feeling better. I haven't used a kidney remedy in two or three years so my cure has been a lasting one. I am surely glad to recommend Doan's for I know they are good."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hussey had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Only the immensity of the stock which The Emporium carries could withstand the terrific onslaught of the crowds which filled this store the last few days—but they've hardly made an impression. It Takes a Long Time to Dispose of a Big Stock, even at the sacrifice at which we are selling these goods.

Said the Wife of One of the Many—"I don't see how anyone who is in the market for apparel can overlook these values—No wonder they have such crowds." She bought a \$20.00 Silk dress for \$9.98; two Tricotine dresses we are now selling for only \$6.98, and one of our beautiful Plush coats we are now selling for only \$14.98. If you come early you can buy now just as cheap as you expect to during January. DON'T WAIT!
